1800+

combinations of creative solutions found right in your browser!

The Fastest Way to DIY a Website!

Our Site2Go is the perfect tool for getting your website up quickly. There is no need to invest in a webmaster or an expensive web development software package.

Using the simple interface of our Site2Go tool, you can choose from a range of professionally designed templates, to simple point and click menus. With all the basics, plus additional features such as a hands-on text editor, an automatic image resizing tool, an easy-to-use uploading wizards, and an extensive help section, you'll be able to customize your own site.

Free Web Design
100+ of built-in color-cordinated templates that will let you create just about any kind of pages you want.

User-Friendly Interface
designed to help you build your own customized professional website without the professional skills. Also comes with clear step-by-step tutorials.

One-click Publishing
creates new pages using our templates and upload files from your hard drive. You can transfer your designs to your online account without ever having to leave your browser.

a proud Hong Kong product of SkyHost.com.hk

On-the-Fly Image Resizing & Rotation
Dynamically resizes and rotates the images you need for each page. To resize a picture, just select the desired size percentage and the best-fit image will be automatically generated.

Complete Control
With the use of Site2Go's provided settings, you can make your very own unique and attractive web sites as a web beginner.

Instant Contact Form
create contact, survey or order forms directly from your web browser.

Safekeeping
all user's information is saved the very moment it is submitted. If you decide to log out, you can come back and continue building your web site from the very point where you left off.

Complete Online HTML Editing
Designed to make text editing as convenient as possible. Format & change font color, size, any way you like.

Share your memories with others
display your artwork in your specially designed website art gallery. Customize the appearance of your own graphic image with our flexible layouts.
